

Type	RT20P(700Ah)
Mast	10500mm

h3 (mm)	Q (kg)		
10500	700	600	
9500	1000	800	
9000	1200	1000	
8500	1500	1200	
8000	1700	1500	
7500	2000	1700	
c(mm)	600	700	

The diagram illustrates a battery rack structure. On the left, a vertical column lists heights (h3) in millimeters: 10500, 9500, 9000, 8500, 8000, and 7500. To the right, a grid lists weights (Q) in kilograms for each height level: 700, 1000, 1200, 1500, 1700, and 2000 kg. The structure is shown as a cross-section with a hatched area representing the battery unit. The width (c) is indicated as 600 mm for the main section and 700 mm for the base section.
